

```
import java.util.regex.Pattern;
class GFGRE {
    public static void main(String args[])
    {
        System.out.println(Pattern.matches(
            "geeksforge*ks", "geeksforgeeks"));
        System.out.println(
            Pattern.matches("g*geeks*", "geeksfor"));
    }
}
```
